

# AVECTRIS PRESS RELEASE

## Avectris acquires ERP sourcing

**Baden, 9 July 2019 – Swiss IT services company Avectris is taking over SAP solution provider ERP sourcing. In future, the company will offer its SAP services under the name Avectris. This merger represents a targeted enhancement of sector-specific SAP competencies at Avectris, which now has around 75 SAP specialists on call.**

Avectris sees SAP services as one of its strategic growth areas. And with ERP sourcing, Avectris has found an ideal partner that complements and expands the existing SAP portfolio. ERP sourcing enjoys a strong position in the market as an integration and operations partner, with outstanding industry and process competencies. Avectris brings its knowledge and experience of large-scale SAP projects and the operation of complex (SAP) solutions, with extensive integration experience in outsourcing projects. For Avectris, the takeover of ERP sourcing is an important step in the further implementation of its strategy. With around 25 full-time employees joining Avectris, the company now has an SAP competency centre with 75 full-time SAP consultants, complemented by a strong network of freelancers and partners.

### **Bundling of experience and expertise**

Thomas Wettstein, CEO of Avectris: 'ERP sourcing has about 20 years' experience in the field of SAP and a compelling service, customer and competency portfolio that ideally complements Avectris. This merger will make us even more effective in the strategically important field of SAP. We can bundle our years of experience and expertise to provide even more comprehensive support for our customers and guide their transformation.'

Urs Bachem, CEO of ERP sourcing, sees nothing but advantages in the merger. 'With Avectris, we have found a partner that is not just a good cultural fit, but one with an exciting portfolio as well. ERP sourcing's employees have the opportunity to expand their ar-

areas of specialisation and knowledge, and use their expertise to support Avectris customers in the future. And customers benefit from an expanded solutions portfolio of professional services and managed infrastructure services, as well as IT security and business continuity.'

### **ERPsourcing becomes Avectris**

Established in 2000, ERPsourcing will henceforth trade on the market under the name Avectris. Existing management, 25 employees and 20 freelancers will now work for Avectris, ensuring continuity. In organisational terms, the company will be integrated into the Application Services division, managed by Ales Kupsky. ERPsourcing's location in Walisellen will remain in use.

The merger will be effective retroactively from 1 January 2019. Both parties have agreed to keep the purchase price confidential.

### **About Avectris**

Avectris is an experienced IT service provider for medium-sized Swiss companies primarily in the service provider, finance, healthcare, industrial, public and utility sectors. As a professional partner on eye-level, Avectris offers its customers comprehensive one-stop IT services. The focus is on hybrid cloud solutions, outsourcing, SAP S/4HANA, collaboration, IT Service Management and consulting services with main emphasis on IT education, IT infrastructure, IT security and business continuity. The company is located in Baden and Wangen near Dübendorf and has around 350 employees. [www.avectris.ch](http://www.avectris.ch)

### **About ERPsourcing**

Since its establishment in 2000, ERPsourcing has been a successful partner to SAP Switzerland. Its team of certified SAP consultants offers support to more than 100 SME customers. The core of its service portfolio is made up of ASP solutions ('SAP from the cloud'), solutions from the ERP@seline product family through SAP PMC ('partner managed cloud'), the Business Process Suite (BPS) process solutions, and SAP consultancy services, including application consultancy, outsourcing and hosting. ERPsourcing's customer-specific solutions, attractive prices and high-quality services help companies in every sector to operate their businesses successfully.
